## SUBJECT INDEX

- 16S rRNA gene of *Streptococcus equi* subsp. *zooepidemicus*, Determination of intraspecies variations of the V2 region of the, 33
- 22-oxa-calcitriol and all-*trans* retinoic acid on the growth of a canine osteosarcoma derived cell-line in vivo and its pulmonary metastasis in vivo, Inhibitory effects of, 79
- 5-HT, histamine and PAF on equine platelets, Actions and interactions of AOP, 175
- Accuracy testing of a new stereotactic CT-guided brain biopsy device in the dog, 243
- Actinobacillus pleuropneumoniae*, PRRS, Aujeszky's disease and influenza viruses in Spanish finishing pigs, Simultaneous serological evidence of, 9
- Actions and interactions of AOP, 5-HT, histamine and PAF on equine platelets, 175
- Active spermophagy in the initial part of the proximal efferent duct of the epididymis of normal domestic fowl (*Gallus domesticus*), 135
- Adherence by *Staphylococcus intermedius* to canine keratinocytes in atopic dermatitis, 279
- All-*trans* retinoic acid on the growth of a canine osteosarcoma derived cell-line in vivo and its pulmonary metastasis in vivo, Inhibitory effects of 22-oxa-calcitriol and, 79
- Amoxicillin and danofloxacin against *Salmonella typhimurium* in an in-vitro pharmacodynamic model, The pharmacodynamic effect of, 261
- AOP, 5-HT, histamine and PAF on equine platelets, Actions and interactions of 175
- Atopic dermatitis, Adherence by *Staphylococcus intermedius* to canine keratinocytes in, 279
- Aujeszky's disease and influenza viruses in Spanish finishing pigs, Simultaneous serological evidence of *Actinobacillus pleuropneumoniae*, PRRS, 9
- Aujeszky's disease virus via the breath of intranasally inoculated pigs, Infection of pigs by, 217
- Blood collection in the horse, Haematological responses of repeated large volume 278
- Bovine FcγPIII with a single extracellular domain, 115
- Bovine spongiform encephalopathy suspects, Clinical sign profile likelihood ratios for, 290
- Buccal mucosal bleeding time in Greyhounds, An interobserver and intraobserver study of, 41
- Bursal disease viruses in bursal tissues, Tissue print hybridisation and reverse transcriptase PCR in the detection of infectious (SC), 99
- Butorphanol analgesia on behaviour in the bitch, The effects of ovariohysterectomy plus different combinations of halothane anaesthesia and, 265
- Campylobacter* in pigs, Enteric colonisation following natural exposure to, 75
- Canine leptin: cDNA cloning, expression and activity of recombinant protein, 109
- Cell mediated and humoral immune responses of white-tailed deer experimentally infected with *Mycobacterium bavis* (SC), 95
- Cell proliferation and apoptosis in the pathogenesis of oesophagogastric lesions in pigs, 189
- Clinical sign profile likelihood ratios for bovine spongiform encephalopathy suspects, 290
- Colonisation status of *Malassezia pachydermatis* on the hair and in the hair follicle of healthy beagle dogs, 291
- Comparison of the performance of linear resistance and ultrasonic pneumotachometers at rest and during lobeline-induced hyperpnoea, 153
- Comparison of two techniques for the determination of serum bone-specific alkaline phosphatase activity in dogs, A, 231
- Danofloxacin against *Salmonella typhimurium* in an in-vitro pharmacodynamic model, The pharmacodynamic effect of amoxicillin and, 261
- Danofloxacin into the gastrointestinal tract in healthy and in *Salmonella typhimurium* infected pigs, Pharmacokinetics and penetration of, 211
- Deer (*Cervus elaphus*), Effect of forage legumes containing condensed tannins on lungworm (*Dictyocaulus* sp.) and gastrointestinal parasitism in young red, 223
- Deer experimentally infected with *Mycobacterium bavis*, Cell mediated and humoral immune responses of white-tailed (SC), 95
- Detection of *Lowsonia intracellularis* in the tonsils of pigs with proliferative enteropathy, 23
- Determination of intraspecies variations of the V2 region of the 16S rRNA gene of *Streptococcus equi* subsp. *zooepidemicus*, 33
- Development and use of monoclonal antibodies to chicken fibronectin to show that the chicken hepatocellular carcinoma cell line, LMH, constitutively expresses fibronectin, 147
- Differentiation induction of canine osteosarcoma cell lines by retinoids, 57
- Effect of forage legumes containing condensed tannins on lungworm (*Dictyocaulus* sp.) and gastrointestinal parasitism in young red deer (*Cervus elaphus*), 223
- Effect of high intensity exercise on the functional capacity of pulmonary alveolar macrophages and BAL-derived lymphocytes, The, 249
- Effect of lead on erythrocytic antioxidant defence, lipid peroxide level and thiol groups in calves, 71
- Effect of parainfluenza-3 virus challenge on cell mediated immune function in parainfluenza-3 vaccinated and non-vaccinated calves (SC), 197
- Effect of single bouts of moderate and high intensity exercise and training on equine peripheral blood neutrophil function, 141
- Effects of food withdrawal and transport on 5- to 10-day-old calves, 125
- Effects of ovariohysterectomy plus different combinations of halothane anaesthesia and butorphanol analgesia on behaviour in the bitch, The, 265
- Enteric colonisation following natural exposure to *Campylobacter* in pigs, 75
- Equine osteoclast-like cells generated *in vitro* demonstrate similar characteristics to directly isolated mature osteoclasts, 161
- Erythrocytic antioxidant defence, lipid peroxide level and thiol groups in calves, Effect of lead on, 71
- Exercise and training on equine peripheral blood neutrophil function, Effect of single bouts of moderate and high intensity, 141
- Exercise, Quantitative analysis of acid-base balance in show jumpers before and after, 103
- Experimental infections of rabbits with rabbit haemorrhagic disease virus monitored by polymerase chain reaction, 255
- Fat infiltration in liver and activity of lecithin:cholesterol acyltransferase in serum of dry and lactating dairy cows, 169
- FcγPIII with a single extracellular domain, Bovine, 115
- Feline coronavirus distribution in naturally and experimentally infected cats, Preliminary studies on, 237
- Fibroadenomatous change: an immunohistochemical study, Oestrogen and progesterone receptors in feline, 15
- Fibronectin to show that the chicken hepatocellular carcinoma cell line, LMH, constitutively expresses fibronectin, Development and use of monoclonal antibodies to chicken, 147
- Food withdrawal and transport on 5- to 10-day-old calves, Effects of, 125

- Haematological responses of repeated large volume blood collection in the horse, 278
- Halothane anaesthesia and butorphanol analgesia on behaviour in the bitch. The effects of ovariohysterectomy plus different combinations of, 265
- Histamine and PAF on equine platelets, Actions and interactions of AOP, 5-HT, 175
- Hydropericardium hepatitis syndrome of broiler poultry: current status of research (R) 201
- Hyperthyroid cats: a qualitative and quantitative study, Tissue sources of serum alkaline phosphatase in 34, 89
- Immunohistochemical localisation of rabbit haemorrhagic disease virus VP-60 antigen in early infection of young and adult rabbits, 181
- Infection of pigs by Aujeszky's disease virus via the breath of intranasally inoculated pigs, 217
- Inhibitory effects of 22-oxa-calcitriol and all-*trans* retinoic acid on the growth of a canine osteosarcoma derived cell-line in vivo and its pulmonary metastasis in vivo, 79
- Interobserver and intraobserver study of buccal mucosal bleeding time in Greyhounds, An, 41
- Lead on erythrocytic antioxidant defence, lipid peroxide level and thiol groups in calves, Effect of, 71
- Lecithin:cholesterol acyltransferase in serum of dry and lactating dairy cows, Fat infiltration in liver and activity of, 169
- Leptin: cDNA cloning, expression and activity of recombinant protein, Canine, 109
- Lipid peroxide level and thiol groups in calves, Effect of lead on erythrocytic antioxidant defence, 71
- Lobeline-induced hyperpnoea, Comparison of the performance of linear resistance and ultrasonic pneumotachometers at rest and during, 153
- Lowsonia intracellulalis* in the tonsils of pigs with proliferative enteropathy, Detection of, 23
- Lungworm (*Dictyocaulus* sp.) and gastrointestinal parasitism in young red deer (*Cervus elaphus*), Effect of forage legumes containing condensed tannins on, 223
- Malassezia pachydermatis* on the hair and in the hair follicle of healthy beagle dogs, Colonisation status of, 291
- Mechanics of the respiratory system in healthy newborn calves using impulse oscillometry, 47
- Mycobacterium bavis*, Cell mediated and humoral immune responses of white-tailed deer experimentally infected with (SC), 95
- Neoplasms, Presence of p53 mutations in feline, 63
- Oesophagogastric lesions in pigs, Cell proliferation and apoptosis in the pathogenesis of, 189
- Oestrogen and progesterone receptors in feline fibroadenomatous change: an immunohistochemical study, 15
- Optimal conditions for simultaneous measurement of platelet aggregation and ATP secretion in canine whole blood, 27
- Osteoclast-like cells generated *in vitro* demonstrate similar characteristics to directly isolated mature osteoclasts, Equine, 161
- Osteosarcoma cell lines by retinoids, Differentiation induction of canine, 57
- Ovariohysterectomy plus different combinations of halothane anaesthesia and butorphanol analgesia on behaviour in the bitch, The effects of, 265
- p53 mutations in feline neoplasms, Presence of, 63
- PAF on equine platelets, Actions and interactions of AOP, 5-HT, histamine and, 175
- Parainfluenza-3 virus challenge on cell mediated immune function in parainfluenza-3 vaccinated and non-vaccinated calves, Effect of (SC), 197
- Pharmacodynamic effect of amoxicillin and danofloxacin against *Salmonella typhimurium* in an in-vitro pharmacodynamic model, The, 261
- Pharmacokinetics and penetration of danofloxacin into the gastrointestinal tract in healthy and in *Salmonella typhimurium* infected pigs, 211
- Phosphatase activity in dogs, A comparison of two techniques for the determination of serum bone-specific alkaline, 231
- Phosphatase in 34 hyperthyroid cats: a qualitative and quantitative study, Tissue sources of serum alkaline, 89
- Platelet aggregation and ATP secretion in canine whole blood, Optimal conditions for simultaneous measurement of, 27
- Preliminary studies on feline coronavirus distribution in naturally and experimentally infected cats, 237
- Presence of p53 mutations in feline neoplasms, 63
- Progesterone receptors in feline fibroadenomatous change: an immunohistochemical study, Oestrogen and, 15
- Proliferative enteropathy, Detection of *Lowsonia intracellulalis* in the tonsils of pigs with, 23
- Propylthiouracil-treated cashmere goats, Type II and type III monodeiodinase activities in the skin of untreated and, 119
- Protein microanalysis of animal tears, 207
- PRRS, Aujeszky's disease and influenza viruses in Spanish finishing pigs, Simultaneous serological evidence of *Actinobacillus pleuropneumoniae*, 9
- Quantitative analysis of acid-base balance in show jumpers before and after exercise, 103
- Rabbit haemorrhagic disease virus monitored by polymerase chain reaction, Experimental infections of rabbits with, 255
- Rabbit haemorrhagic disease virus VP-60 antigen in early infection of young and adult rabbits, Immunohistochemical localisation of, 181
- Respiratory system in healthy newborn calves using impulse oscillometry, Mechanics of the, 47
- Retinoids, Differentiation induction of canine osteosarcoma cell lines by, 57
- Salivary glands, Sialography of sheep parotid and mandibular, 3
- Salmonella typhimurium* in an in-vitro pharmacodynamic model, The pharmacodynamic effect of amoxicillin and danofloxacin against, 261
- Salmonella typhimurium* infected pigs, Pharmacokinetics and penetration of danofloxacin into the gastrointestinal tract in healthy and in, 211
- Sialography of sheep parotid and mandibular salivary glands, 3
- Simultaneous serological evidence of *Actinobacillus pleuropneumoniae*, PRRS, Aujeszky's disease and influenza viruses in Spanish finishing pigs, 9
- Spermiophagy in the initial part of the proximal efferent duct of the epididymis of normal domestic fowl (*Gallus domesticus*), Active, 135
- Staphylococcus intermedius* to canine keratinocytes in atopic dermatitis, Adherence by, 279
- Stereotactic CT-guided brain biopsy device in the dog, Accuracy testing of a new, 243
- Streptococcus equi* subsp. *zoepidemicus*, Determination of intraspecies variations of the V2 region of the 16S rRNA gene of, 33
- Tannins on lungworm (*Dictyocaulus* sp.) and gastrointestinal parasitism in young red deer (*Cervus elaphus*), Effect of forage legumes containing condensed, 223
- Tears, Protein microanalysis of animal, 207
- Thiol groups in calves, Effect of lead on erythrocytic antioxidant defence, lipid peroxide level and, 71
